Ethereal oils See "essential" under *Oils*
Ethereal salts See *Esters*
Ethers (*for ethers of specific compounds which are primarily ethers are, of simple, indexed under such names as* Ethyl ethers, Phenyl ethers, *of complex, under* Ether *However, common names such as* Anisole *and* Phenetole, *are used, and ethers of very complex ring compounds may be treated as ethoxy, methoxy, etc derivatives Ethers of hydroxy compounds are independently treated (not indexed under the hydroxy compounds), except that the heading* Cellulose ethers *is used*)
